NOI# 23-93 TESD

Re: Multimodal Improvement of Mt Olivet RD NE

Dear Chairperson Saucedo Guzman,

Pursuant to the “Administrative Procedure Amendment Act of 2000” D.C. LAW 13-249 (48 DCR 3491 April 20, 2001), the District Department of Transportation (DDOT) is required to give a written Notice of Intent (NOI) on proposed traffic and parking modifications.

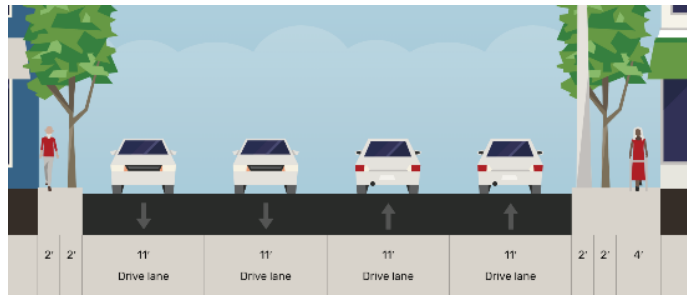

DDOT proposes to improve multimodal access, including pedestrian and cyclist safety improvements on Mt Olivet Rd NE between 9th St NE and Bladensburg Rd NE.

Over the last several years, the DC Water Northeast Boundary Tunnel Project construction site has significantly changed the roadway configuration along Mt Olivet Rd NE, from Corcoran St NE to Trinidad Ave NE. As a result, DDOT plans to use a similar roadway configuration and repurpose the roadway for multimodal improvements.

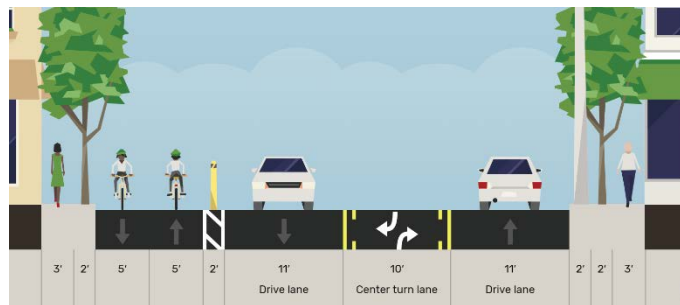

The history of crashes along the corridor shows several major injuries and fatal crashes involving pedestrians, cyclists, drivers, and passengers. The change from a four-lane undivided roadway to a three-lane cross-section, otherwise known as a [Road Diet](#), will improve safety and reduce crashes by decreasing the number of conflicts along the road.

This project includes several multimodal improvements, including a two-way cycle track along the south side of Mt Olivet Rd NE and enhanced bus stop locations. In addition to these improvements, this project provides a safe pick-up-drop-off at KIPP DC Webb Campus.

We are issuing this NOI at the 65% design stage to solicit public feedback through the ongoing development stages of this project. Proposed cross sections for the project are shown in Figure 1. Attached is the 65% plan for the intersection of Mt Olivet Rd NE & West Virginia Ave NE.
